## Experience

---

### Cofounder / CTO Moshicam · [moshi.cam](https://moshi.cam)

*May 2024 – Present*

- Grew a mobile photo editing app to **500K users, 150K MAU, and 1.5M photos shared in 6 months** through organic creator-driven distribution; rated 4.9 stars across thousands of reviews
- Built a GPU-accelerated photo editor using React Native, Shopify's react-native-skia, and react-native-reanimated. Dual-canvas rendering architecture achieves 60fps gesture performance across pinch-zoom, drag, rotate, and multi-layer compositing
- Built and scaled a global creator platform with thousands of artists worldwide contributing frames and stickers, with top creators reaching 50k+ followers on Moshicam
- Launched subscription monetization (premium frames + AI-generated filters), establishing recurring revenue across thousands of subscribers

### Cofounder / CTO Gallery · [gallery.so](https://gallery.so)

*Jan 2022 – May 2024*

- Built the premier platform for showcasing digital collectibles with hundreds of millions of dollars worth of NFTs displayed, adopted by top collectors and influencers in the space
- Hired and led engineering across web and mobile apps; implemented multichain NFT infrastructure spanning EVM L1s/L2s, Tezos, and POAP, supported by an in-house indexer processing millions of tokens

### Senior Software Engineer Coinbase

*Jul 2019 – Dec 2021*

- Tech lead across four product surfaces. Led frontend architecture and React Native development for Coinbase Pro's trading interfaces, Advanced Trading migration to coinbase.com, Coinbase Card rewards, and Coinbase Wallet browser extension
- Founded and led the Frontend Standards guild, a cross-org forum where frontend leads aligned on React standards, performance patterns, and drove major TypeScript migrations across coinbase.com and React Native repos

### Software Engineer IrisVR

*Oct 2015 – Jul 2019*

- Built a cloud-based 3D model library and remote collaboration tools for architects, including in-browser 3D preview with React + Three.js
- Migrated Node.js microservices to Go managed with Kubernetes; architected enterprise billing and license management systems; led a Gatsby.js rewrite that improved Google SEO score from 14 to 100

### Instructor Fullstack Academy

*Oct 2018 – Mar 2021 (part-time)*

- Taught fullstack JavaScript bootcamp classes; contributed to curriculum on modern JS best practices
